

KARTHIKEYAN V

FRESHER

I am looking for a role in a dynamic organization that will allow me to kickstart my career while developing a robust skill set. I aim to enhance both my technical and soft skills by taking on challenging projects and broadening my knowledge.

EDUCATION

- **S.A. Engineering College** 2025
Anna University, Chennai
Master of Computer Applications with a CGPA of 7.0.
- **Bishop Caldwell College** 2020
Manonmaniam Sundaranar University in Tuticorin
Bachelor's Degree in Computer Science with a CGPA of 6.96.
- **Finished my studies at C.M. Higher Secondary School** 2017
in Tuticorin with a score of 45%.
- **I completed my studies at X'AN Matriculation School** 2015
in Tuticorin, achieving a score of 88%.

PROJECT

- **Voice activated sales assistant for a jewellery shop**
This desktop application helps the admin manage the sales and inventory of a jewellery shop using voice commands. The system interacts with a SQLite3 database, performs CRUD operations, and provides real-time data feedback via voice using pyttsx3
- **Hospital Management System**
A Hospital Management System (HMS) mobile app is designed to digitize and streamline hospital operations like patient registration, appointments, doctor-patient interactions, billing, and inventory, all accessible through a mobile interface. It benefits patients, doctors, staff, and administrators.
- **Smoke Detector**
The IoT-based Smoke Detector is a smart system designed to detect smoke and alert users remotely in real-time, helping prevent fire-related accidents. It integrates sensors, microcontrollers, and communication modules to monitor environmental conditions and send alerts via IoT platforms.
- **Stock management**
A Stock Management System built with React Native is a cross-platform mobile app designed to help businesses track inventory levels, manage product stock, and streamline supply chain operations. It is ideal for small to medium-sized businesses, retail stores, and warehouses.
